SOURCING

OUR PROMISE TO OUR CUSTOMERS

Our customers are always in the center of everything we do. We know that you do not depend on us, but we do depend on you.

For this reason, your satisfaction is our primary goal and we strive to offer a competent and friendly customer service, short turnaround times and flexible replacement policies.

In order to maintain the quality you expect from us, we carefully choose our suppliers and brands to ensure good quality reagents and we constantly work with our suppliers to ensure reliable delivery estimates and short delivery times.

YOUR LOCAL POINT OF CONTACT

The map shows Switzerland with red lines connecting it to contact information boxes for various regions. The boxes contain the name, title, location, email, and phone number of the local contact person.

OUR TOP SUPPLIERS

INTEGRATED DNA TECHNOLOGIES

The global leader in DNA and RNA synthesis

- DNA and RNA oligonucleotides
 - 2 day turnaround time, free shipping
- Synthetic genes, 125-3000 bp, free shipping
- One-stop-shop CRISPR-based genome editing
- NGS – targeted exome panels, adapter sets & blockers

www.lubio.ch/integrated-dna-technologies

SINO BIOLOGICAL

Recombinant proteins, antibodies and cDNA clones

- High quality recombinant proteins
- Antibodies and ELISA kits
- cDNA expression clones
- Custom and CRO services

www.lubio.ch/sinobiological

BIO X CELL

In vivo grade antibodies for preclinical research

- More than 300 monoclonal antibodies
- In vivo grade – ultralow endotoxin levels, free of preservatives
- Special academic pricing

www.lubio.ch/bioxcell

SELLECKCHEM

Small molecule inhibitors and inhibitor libraries

- Small molecules & general inhibitors
- Cherry-picked small molecule libraries
- Compounds for in vivo use

Selleckchem.com

www.lubio.ch/selleckchem

PEPROTECH

The cytokine experts

- High quality cytokines and growth factors
- Animal-free cytokines
- Specialty media

www.lubio.ch/peprotech

LUCIGEN

Simplifying genomics

- Competent cells
- General cloning and PCR enzymes
- NGS library prep kits

www.lubio.ch/lucigen

ANATRACE/PROTEIN ARK

Detergents, lipids and tools for protein sample preparation

- Lipids & detergents (e.g. DDM, GDN)
- Chromatography columns (FPLC, spin, affinity & protein purification)
- Loose resins for affinity chromatography such as Super Ni-NTA

anatrace

ProteinArk

www.lubio.ch/proteinark

NIPPON GENETICS EUROPE

Tools & reagents for molecular biology

- DNA/RNA imaging with blue/green LED technology
- Midori green safe DNA stain
- Bambanker freezing media
- Lab plastics

Genetics NIPPON Genetics EUROPE
Innovation for you!

www.lubio.ch/nippon-genetics
