Overview

Charnwood Discovery is a leading provider of drug discovery services, from standalone customized solutions through to fully integrated programs that enhance the experience and success of complex drug discovery.

Founded in 1998 we have grown and expanded to offer multiple services across chemistry, bioscience and ADME / DMPK and are an established partner of choice for many biotech and pharmaceutical companies.

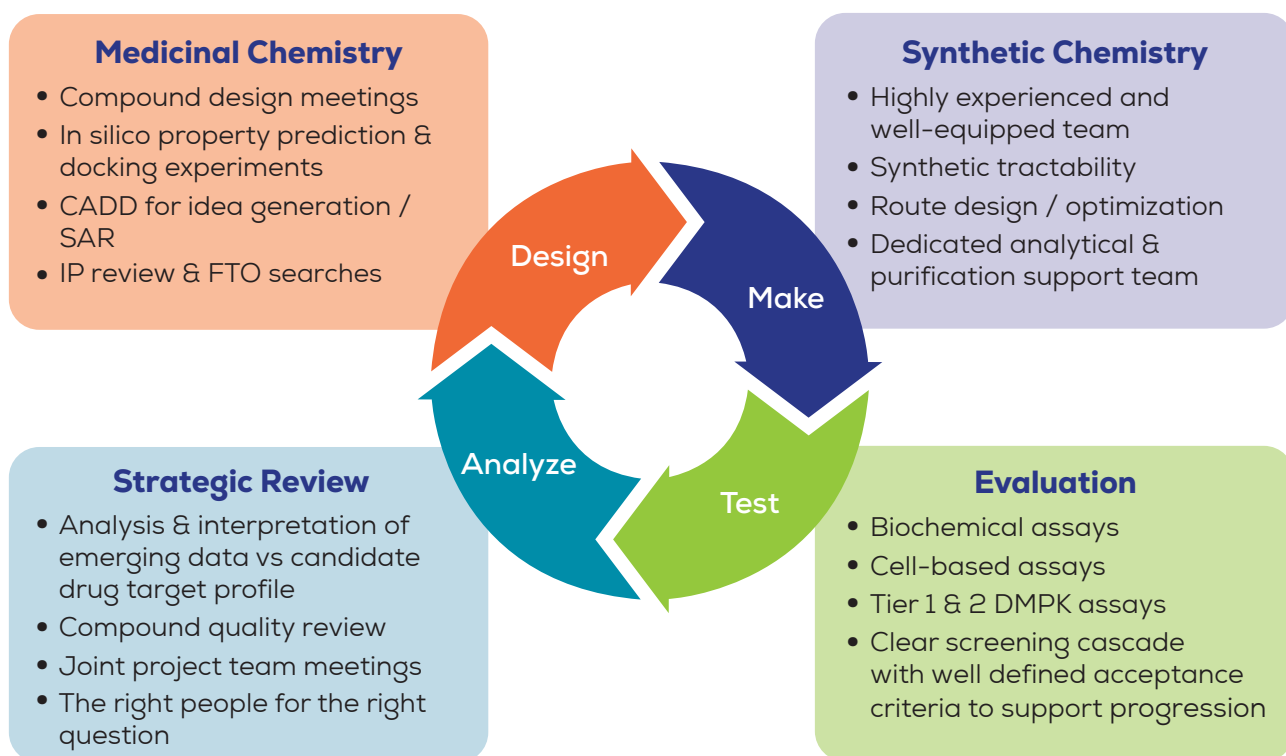

Our client centric, flexible approach, combined with a commitment to innovation and excellence sees many clients return to us year on year to support their research programs.

World Class Facilities

Our compelling 'under-one-roof' service ensures that the best scientific minds can quickly and easily collaborate to move your project forward. We recruit from a global talent pool for diversity of intellectual input and, by investing in our scientists' on-going development, they stay at the cutting edge of the latest advances.

Located in our spacious facility on Charnwood Campus, we create an environment that allows colleagues to work effectively by providing time and space to reflect, think and share how best to achieve a client's goals.

Our labs are set up to facilitate high levels of communication between multidisciplinary teams enabling rapid problem solving and the best possible project outcomes.

Our collaborative and flexible approach ensures we add value across the drug discovery pipeline from target validation through to pre-clinical candidates.

Whether you need a standalone or fully integrated solution our multidisciplinary teams provide innovation and excellence across:

- **Integrated Drug Discovery**
- **Bioscience**
- **ADME/DMPK**
- **Discovery Chemistry**
- **Computer-aided Drug Design**
- **Chemical Development**

“The timely and successful development of the chemistry for the synthesis of ANT3273 has facilitated the preclinical studies for this potential drug. Their expertise and flexibility have made them one of our key partners for chemistry.”

CEO, Antabio

“We expected great things and your team are exceeding those expectations already!”

Project Lead, biotech company, USA

“We were impressed by the expediency and success of Charnwood to conquer a challenging process and deliver a key intermediate in excellent quality.

Regular, clear and concise information was appreciated.”

Project Lead, Basel
