## Euromed Pharma

### WHO WE ARE

We are a worldwide group of 10 subsidiaries dedicated to assist our partners at every stage of a pharmaceutical product's life cycle.

We offer a wide and comprehensive range of services for the management of pharmaceutical products, both commercial and clinical, with customised solutions based on the specific needs of our partners.

### EUROMED PHARMA SERVICES TO CLINICAL TRIALS: TOGETHER THROUGHOUT YOUR DRUG'S LIFECICLE

#### Our Strengths:

##### GLOBAL REACH

Our global presence with 10 subsidiaries makes us the best partner in sourcing products and supply them everywhere and in IMP management that works in synergy with our global sourcing, offering a very flexible service.

##### BEST IN CLASS IN SOURCING PRODUCTS FROM EUROPE

Our huge and strong presence in Europe makes us the best partner in sourcing products from these markets thanks to our direct contact with the local partners.

##### FLEXIBLE AND CUSTOMIZED SERVICE

We can offer customized and specific solutions aligned to our partner's needs, in accordance to each local guidelines and regulations.

## Our Services

### Comparator Sourcing

#### Clinical Trials Supplies

Our aim is to provide our customers with a service experience of the highest quality, matching unrivalled business solutions with the most cost effective options. We can satisfy all Sponsors' requests related to their Clinical Trials, by supplying the following from any continent: Comparators, Standard of Care, Rescue Medication, Ancillaries and medical devices.

#### Clinical supply chain consulting

Preliminary Assessments to successfully plan your trials: Strategic planning – market accessibility intelligence, Selection of qualified packaging materials, Clinical Supply management forecasting tools.

### IMPs Management

#### Manufacturing

Masking for oral solid forms and placebo capsules manufacturing, according to EU-GMP / CGMP.

#### Packaging & Labelling

Primary and secondary packaging for clinical trials drugs are some of our core activities.

#### Return and Destruction

We offer a service of drug return and certified destruction for Clinical Trial drugs.

#### Narcotics Management

Possibility of packaging and distribution of narcotic drugs for clinical trials use.

#### Storage

A dedicated warehouse for IMPs storage managed through a dedicated ERP system.

#### Distribution

Wide range of options for the distribution of IMPs worldwide.

**Analytical Support** Laboratory and staff dedicated to stability studies, analysis and quality control.
